

## Highlights

We have six+ weeks of school left and these last six weeks are filled with opportunities to continue learning and growing in both classrooms.

The Preschool Class is having fun learning about farm life this month. The classroom is filled with materials and projects related to farm equipment, crops, and animals.

The Toddler Class is continuing to learn about transportation this month. Air and sea transport are the specific modes of transportation the children will learn about through books, songs, art, and play.

## Important Dates:

May 25 - Holiday (African Freedom Day)  
June 14 - Last day of school

## School Website

Don't forget to check out the website and share it with families who may be interested in the school. In addition to information about the school, you'll find the calendar, important forms, and news.

## Friendly Reminders

- Thank you for keeping your child home to rest if s/he has been sick (fever, vomiting, diarrhea, etc.) within 24 hours of school. This will help keep the rest of our students healthy!
- The sun is strong! Please pack a hat and put sunscreen on your child before school. We will also help your child re-apply throughout the day.

## Best Wishes

As Eno, June, and Eloise move on to new adventures, we wish their families all the best! We look forward to hearing updates and seeing pictures!

*A person's a person,  
no matter how small.*
