

Dear Parents,

We have put the following protocols in place in the event that we have a COVID-19 positive case within our school community.

We have divided the protocols into different scenarios.

Scenario 1:

Someone within the household tests positive:

- The family need to inform the school immediately.
- Whole class will be isolated and investigated if necessary.
- Children who have been exposed to a confirmed case of COVID-19 should get tested and inform the school of the results.
- Email to be sent to parents to inform them of the positive case, all information pertaining to the family will be kept confidential.
- The child exposed to a confirmed case of COVID-19 must be excluded from the school setting for 14 days.
- These individuals must self-isolate at home and monitor for symptoms for the next 14 days.
- All parties who were exposed to a confirmed case of COVID-19 will need to continue to self-isolate for 14 days even if their test is negative.
- Children in the same household (e.g. siblings) must stay home from school until the child who is a close contact completes their period of self-isolation (14 days)
- Family will need to provide a negative test before returning to school.

Scenario 2:

A student in the school tests positive:

- Family needs to inform the school immediately
- Email to be sent to parents to inform them of the positive case, all information pertaining to the family will be kept confidential.
- Whole class will be isolated and investigated if necessary.
- Family needs to provide the school with the following details:
 - o Symptoms
 - o When the child tested positive
 - o Exposure details if possible
 - o Contact with anyone else within the school community (names, dates)
- All areas of possible contamination will be disinfected.
- Contact CDC for further guidance if necessary.
- We will continue to communicate with the parents. We will clarify all the steps we have taken.

Kind Regards
