## TO READ OR NOT TO READ ?

Reading to young children is proven to help along the process of cognitive development. Early reading sparks curiosity, stimulates the imagination, most importantly helps children to get to know sounds, words and language skills which help develop early literacy skills. Reading helps children build and discover new vocabulary. Lets aim to read a book a day!

THERE ARE MANY LITTLE WAYS TO  
ENLARGE YOUR CHILD'S WORLD.  
LOVE OF BOOKS  
IS THE BEST OF ALL.
